

WELCOME

Welcome to the **Unitarian Universalist Ocean County Congregation**.

We are a caring and upbeat community. We come together to dwell together in peace, to seek spiritual and religious truth in love, and to help one another. UUOCC is joined with more than 1,000 free and independent UUA congregations worldwide in a responsible search for truth and meaning.

People of all religious, cultural, and socioeconomic backgrounds, all colors, all sexual orientations, and all ages are welcome to join with us and become part of our congregation and community.

**We offer you roots and wings;
We ask of you responsibility and love.**

SUNDAY SERVICES

Sunday Worship is at 10:30 AM. Services are led by our minister, **Rev. Betsy Scheuerman**, other ministers, or lay people. Our services provide a unique opportunity to reflect, inspire, and express the diversity of our faith. Services include seasonal celebrations, tributes to significant social movements, historical milestones, and Unitarian Universalist themes.

Rev. Betsy Scheuerman

Seekers and searchers, questioners and doubters, skeptics and heretics, the hurting and the healing, the yearners and learners, — all are invited and welcome. Come. You may find your home, at last.

FELLOWSHIP HOUR

Following services each Sunday, we enjoy each other's company around coffee and light refreshments. During Fellowship Hour, we and our friends socialize, and enjoy and get to know one another better. When you come to us, please plan to stay for this informal part of our Sunday mornings.

WANT TO KNOW MORE?

Visitors can speak to any member during Fellowship Hour for answers to any questions, and can also sign up to receive **The Communitarian**, our monthly newsletter, and for our weekly **Sunday Digest**. A FAITH THAT MATTERS

Unitarian Universalist Ocean County Congregation (UUOCC)

is a caring and vibrant religious and spiritual community where all are welcome.

We embrace diversity, and affirm the self-worth and value of every person and aspire to love universally. We celebrate life, advocate human compassion, and seek truth and meaning.

Using reason and the democratic process, we work together to make our world a better place.

We affirm the rights of individuals to develop their own concepts of the nature and destiny of humankind and the universe, and to formulate principles to govern and conduct their own lives and their relations with others.

We endeavor to see that the lonely voice, refused a hearing elsewhere, shall have an opportunity to be heard and to present its case before the court of reason.
